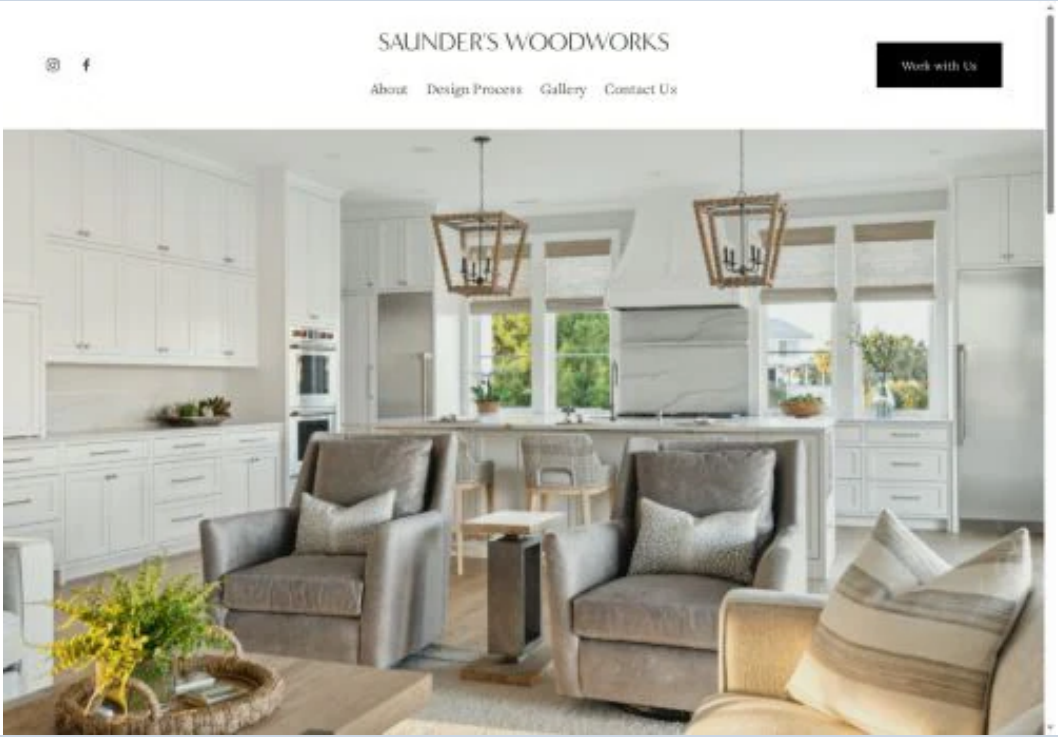
WEBSITE REVIEW · REDESIGN DIRECTION

Saunders Wood Work LLC

https://saunderswoodworkllc.com/about · Website trust, clarity, and conversion audit



EXECUTIVE SUMMARY

CLAUDE-ASSISTED NARRATIVE

Saunder's Woodworks has strong local trust signals—30 years of experience, verified contact information, and clear business hours—but scores only 5.6/10 overall. The About page content is thin and lacks detail about services, portfolio evidence, or customer testimonials that would reassure prospects about quality and process. Adding visual proof of work and clearer service descriptions would significantly strengthen conversion potential.

CURRENT SCORE

5.6/10

There is real potential here, but sadly there is still room for improvement and clearer conversion guidance.

PROJECTED

5.9/10

Based on the recommended scope.

WHAT IS WORKING · WHAT IS COSTING RESPONSE

WHAT IS ALREADY WORKING

The page gives visitors a readable starting point

The page title, "About - Saunder's Woodworks," gives the audit enough signal to understand the offer.

WHAT IS COSTING RESPONSE NOW

OBSERVED · VISUAL DESIGN

No primary heading (H1) found on the page

The page has no H1 heading, which means there's no clear message anchor for visitors or search engines.

Why it matters: Without a primary heading, visitors can't instantly understand what the business offers or why they should stay.

Fix: Add a clear, benefit-driven H1 that communicates the core value proposition within the first viewport.

OBSERVED · SEO READINESS

No meta description detected

The page is missing a meta description, which controls the snippet shown in search results.

Why it matters: Without a meta description, search engines auto-generate a snippet that may not represent the business well.

Fix: Add a compelling meta description (120-160 characters) that summarizes the page's value proposition.

RECOMMENDED DIRECTION

HIGH-LEVERAGE UPGRADE

First-impression reset

Proposed layout makes the value and next step obvious in under a few seconds.

STRATEGIC RECOMMENDATION

CTA flow redesign

Each section naturally earns the next step and keeps momentum intact.

SUGGESTED DELIVERY PATH

DAY 1

Strategy

Clarify the core narrative around local authority and estimate conversion before a single screen is redesigned.

DAY 2

Design System

Build a modular visual system that feels expensive, consistent, and ready to scale across the full site.

WHAT STRONGER SITES DO BETTER

Clearer offer, proof before the ask, and an obvious next step on every screen.
